WORK TRUCK SOLUTIONS

Ford BPN BUSINESS PREFERRED NETWORK

APPROVED FOR CO-OP

"We are very happy with the results of our Work Truck Solutions site. Our customers appreciate the ease at which they can search through our inventory with a few clicks of the mouse and find exactly what they want. It is not only a time saver for the customer but for us as well. Customers now call in with the exact stock number of the trucks they want. Simple and easy! I also like the reporting that shows me the specific chassis the customers are searching for (not just the ones we stock). This helps me adjust my stock to what customers want and ultimately helps us sell more trucks!"

Francis Hopping,
Sales Manager

Sell More Trucks

Easy to use prospecting and quoting tools.

Stock Smarter

Our analytics tools show you what trucks your customers are viewing.

Save Time

Manage inventory, pricing, and your commercial sales team all in one place.

Work Truck Solutions

It's never been easier to display and manage your commercial inventory online. Work Truck Solutions handles all the heavy lifting so you can focus on selling more commercial vehicles.

- A responsive site that provides a great buying experience for your customers whether they're on a computer, phone, or tablet.
- A commercial site optimized for search engines, making it easier for customers to find your inventory.
- Fleet management companies like Donlen and ARI can easily view your inventory and contact you about a specific vehicle.
- Optional participation in our Online Dealer Trade Network.
- Strong support and co-op dollars from Ford BPN.
- No set-up fee. Month-to-month agreement (no contract).
